

*Name: Dr. Keith Hentel, MD MS*

*Title(s):*

Associate Professor of Clinical Radiology,

Executive Vice Chairman, Department of Radiology

Chair, Quality Assurance/Quality Improvement, Weill Cornell Imaging at NewYork-Presbyterian

Chair, Patient Access/Experience, Weill Cornell Physicians Organization

Weill Cornell Medicine New York-Presbyterian Hospital

*Brief Bio:* Dr. Hentel is a practicing emergency and musculoskeletal radiologist who founded the Division of Emergency and Musculoskeletal Radiology at New York-Presbyterian Hospital/Weill Cornell Medical Center. He has used his department and institutional leadership positions to lead the implementation of programs and technologies to improve practice efficiency, access to care, patient safety, and patient experience. These efforts include leading the implementation of clinical decision support (CDS) for Weill Cornell's participation in the Medicare Imaging Demonstration Project as part of the Brigham and Women's convener group. Combining his advanced degrees in Medicine and Engineering with his expertise in clinical operations, Dr. Hentel continues to focus his academic interests on the effective implementation and use of CDS. Dr. Hentel currently leads the multi-departmental multi-disciplinary team responsible for imaging appropriate use criteria at Weill Cornell, a designated qualified provider led entity under the regulations set forth by the Protecting Access to Medicare Act of 2014 (PAMA2014)
